Some Questions Answered

Q. What Is Probate?

Probate is the term used for dealing with what happens to their estate when someone dies.

Q. I don't know what to do?

Don't worry, if the deceased left a Will, there is usually one or more executors appointed to handle the deceased's affairs. If there is no Will (intestacy), statute sets out who is entitled to deal with the estate and how the estate is distributed. In either case, Affinity can advise you. A free information pack will be provided by your Probate Advisor at your initial consultation.

Q. Why do I have to go to all the trouble of applying for a Grant of Probate?

You have no choice in the matter. Institutions such as banks, building societies and insurance companies may not allow property held in the sole name of the deceased to be transferred or sold without Probate. If there is an interest in a house to deal with, Probate will be required for this.
